

What would you do with
free remote monitoring
of all your heat pump
installations?

Monitor every install from one dashboard with the **Passiv Portal**

NO ANNUAL FEES

passiv

FREE for Passiv Smart Thermostat installers

- ✓ Supports 16+ leading heat pump manufacturers
- ✓ View live and historic performance data
- ✓ Explore settings, setpoints and schedules
- ✓ Monitor flow temperatures, energy usage, tank temperatures, error codes and much more!

Why install the **Passiv Smart Thermostat**

It is the smartest heat pump optimiser on the market, with an app and proper in-home controls.

It directly controls flow temperature to reduce bills by 30%, optimising to local weather forecasts, the home's thermal performance, electricity tariffs and solar PV.

Stop guessing. Start monitoring.
